Education

Cambridge Institute of Technology, Bangalore, Karnataka
B.E. in Information Science

SRT School, CBSE
Pre-University Course

Projects

Sentiment Analysis

- Flask-based app for sentiment analysis using the CardiffNLP/Roberta model to classify text as positive, neutral, or negative, with probability scores for each prediction.

Pinterest Automation

- Automated Pinterest login and pin creation with Selenium WebDriver. Includes test automation with Pytest and robust error handling.

IMDb Clone - React.js

- Created an IMDb-like app using React.js to browse and search trending movies. Features include detailed movie info, watchlist, and responsive design using TMDB API.
